

# Rubberdisc.com Service Order Form

We suggest you place your discs in a case for storing CDs. A bubble wrap mailer or a padded envelope will provide shipping security for the CD. You may also send your CD in a flat shipping mailer specifically designed for sending CDs. It is important to separate multiple discs within a package so they don't scratch further during shipping. If you are sending more discs than one mailer would hold, we suggest packing the discs in a sturdy box and adding packing or padding material so that they are not jostled during delivery.

Please print the form at right, fill it in completely, and mail it with your discs to:
